LOOKING FOR

Fashion & lifestyle retailers • Digital Native Vertical Brands • Restaurant and F&B chains • Leisure concepts • People services

DESCRIPTION

By 2027 central Paris will have a new quarter, with the Gare d'Austerlitz as its beating heart.

This new living space, combining low-carbon, biodiversity and soft mobility, is a response to today's urban issues, and a step towards a future that is as responsible as it is sustainable.

A new mixed-use district to make living together a reality with: an extension of Marie Curie Square, new shops, services and restaurants, leisure and cultural facilities, social and intermediate housing for families and students, head offices and hotels, and more.

DESCRIPTION

Living, working, exercising, having fun, meeting... all in the same place, designed for the good of all: this is the promise of Bobigny Cœur de Ville.

The city of Bobigny is seizing the fantastic opportunity to host one of the Greater Paris stations on its soil, and to invent an innovative and high-quality way of living.

Aiming for the ÉcoQuartier label and the most efficient labels, Altarea is committed to making the heart of the city of Bobigny an cutting-edge district, at the forefront of issues of energy transition and climate change.

- Architect(s): **Chapman Taylor**
- Opening date: **January 2024**
- Total GLA: **45,057 m²**
- Nb of brands/stores: -
- Catchment area: **330,000**

LOOKING FOR

Fashion & lifestyle retailers • Restaurant and F&B chains

DESCRIPTION

Chapman Taylor's interior design project for a new 5-storey shopping mall in Urumqi, Northwest China, has now opened.

With 45,057m² of retail and leisure space, Wuyue Plaza is located in the strategically important transportation hub of Shuimogou District and the Hongguangshan Convention and Exhibition centre.

The design concept for the mall interiors focuses on natural illumination from skylights and naturally stylized atriums to reflect mountains, lakes, and deserts. Every floor has its own special theme, such as a floating city, a future garden, 'air' island, an interstellar walk, and a time tunnel.

Construction began in 2021 and was completed in early 2024.

Livat Shanghai

TYPE OF PROJECT

TYPE OF ASSET

Mixed-use – Retail, Office, Leisure

PRESENTED BY

Design International

www.designinternational.com

WHERE / WHEN?

- City: **Shanghai**
- Region: **Lingkong**
- Country: **China**
- Developer(s): **Chapman Taylor**
- Owner(s)/Investor(s): **Ingka Centres**
- Architect(s): **Design International**
- Opening date: **Q2 2024**
- Total GLA: **150,000 m²**
- Nb of brands/stores: -
- Catchment area: -

DESCRIPTION

Drawing on the origins of IKEA and the core of its foundation, the architectural concept behind Livat Shanghai is guided by the natural formations found in birch wood, first appreciated by IKEA's manufacturers.

The project is shaped by the natural wood grain theme, with natural contours repeated throughout the site.

These organic profiles are inspired by the sophisticated and refined techniques of Scandinavian craftsmanship, bringing a new design approach to the city of Shanghai.

The Lingkong area is in need of a heart which can bind together the surrounding community and enhance daily life for the people who call it home. The result is a place of celebration which people can feel a part of, with pride.

The design encourages outside components to merge with the internal environment to further enhance the in / out connectivity as one perceived sense of place and space.

The building facade, materials and landscape emphasise and reinforce visually the customer path towards the interior of the shopping centre.

DESCRIPTION

FASHION HOUSE Outlet Centre Pallady opened its doors on May 27th in the East of Bucharest, following a EUR 25 million investment.

The second phase opened in on June 25th, 2024 and added over 5,700m² to the existing space.

FASHION HOUSE Pallady is in the Eastern part of Bucharest in a strategic point connecting traffic from the Southern part of Romania and the A2 highway.

With an open-air gallery, the project features a design concept inspired by Bucharest's Belle Époque architecture, with bohemian streets which create a very attractive destination for visitors.

A children's play area, restaurants, and over 300 free car parking spaces for visitors boosts the attractiveness of the outlet.

LOOKING FOR

Fashion & lifestyle retailers • Restaurant and F&B chains

DESCRIPTION

Roermond Designer Outlet is located in one of Europe's most densely populated regions, with an excellent mix of luxury and premium brand names.

Appealing to international, domestic and cross border tourists, the centre is consistently ranked as Europe's best performing outlet.

Roermond has recently begun an ambitious refurbishment project with Nike to upsize its existing store by over 1,500m². The new unit will span two floors and features a sustainable design using cross laminated timber which has received PEFC approval.

The store will achieve an Excellent BREEAM score when it opens in 2025.

LOOKING FOR

Fashion & lifestyle retailers • Digital Native Vertical Brands • Restaurant and F&B chains • Leisure concepts • People services • Corporate offices • ESG service providers (Solar panel, Electric car recharging...)

DESCRIPTION

Promenada Mall, located in Bucharest's central business district, is being transformed by the addition of a 55,400m² GLA mixed-use extension to the existing 39,400m² centre.

The project involves excavating the deepest building basement in Central and Eastern Europe, at 26m, to accommodate 2,400 car parking spaces over six levels.

The development has strong sustainability credentials, with 600kW of photovoltaic panels being installed on its green roof, which extends to the plant life on the neighbouring mall rooftop garden and provides rainwater harvesting.

The project will be BREEAM in Construction certified and the materials include principles of the circular economy. The concept's goal is to create an outstanding mixed-use project.

LOOKING FOR

Fashion & lifestyle retailers • Digital Native Vertical Brands • Restaurant and F&B chains • Leisure concepts • Corporate offices • Investors for new development

DESCRIPTION

Cartier Coresi is an integrated ecosystem uniting three entities: Coresi Shopping Resort, Coresi Avantgarden, and Coresi Business Campus.

As Romania's largest urban regeneration project, it covers 120 hectares, representing 10% of Braşov's usable area, located in the heart of the country.

This visionary project promotes innovation, entrepreneurial courage, and community spirit.

Sustainability initiatives include 90,000 m² of green spaces, energy-efficient systems, and extensive recycling programs.

Serving 9,000 daily residents and workers, Cartier Coresi is continuously evolving to meet the current and future needs of its community while preserving its rich heritage.

Fashion & lifestyle retailers • Digital Native Vertical Brands • Restaurant and F&B chains • Leisure concepts • People services • Corporate offices • ESG service providers (Solar panel, Electric car recharging) • Health&Beauty retailers • Premium and upper market retailers

DESCRIPTION

Wilanow Park is a mixed-use project planned as a new vibrant destination in the southern part of Warsaw.

Wilanow district is among the top-earning and most attractive areas of Warsaw, and boasting a rich historical heritage.

The historic Wilanow Palace, often referred to as the “Polish Versailles”, was the second home to Polish kings and is one of the most frequently visited tourist attractions in Poland.

The Project is located on 7.7ha plot in Miasteczko Wilanow next to Southern Warsaw ring road, which ensures perfect accessibility and visibility from the direct catchment area for both pedestrians and cars.”

Miasteczko Wilanow is one of the most modern housing estates in the capital, designed in accordance with the principles of sustainable development and based on the principles of the 15-minute city.

The Project Wilanow Park combines a premium shopping mall, a food & beverage and leisure destination with publicly accessible 2ha park, and a community centre serving the evolving needs of the local community.

LOOKING FOR

Fashion & lifestyle retailers • Digital Native Vertical Brands • Restaurant and F&B chains • Leisure concepts • ESG service providers (Solar panel, Electric car recharging...)

DESCRIPTION

Winner of the C40 Reinventing Cities tender, the Piazza Loreto project will transform Piazzale Loreto - an historical and central traffic junction - into a welcoming, inclusive, smart, and sustainable public place full of services, retail and F&B concepts, and events and temporary exhibits.

Designed with an integrated approach involving local communities, the project is a response to the theme of Resilience and climatic adaptation in line with the 2030 UN Agenda goals.

Piazza Loreto is the first example of the regeneration of an existing square in the middle of a city, realised by the partnership between Public and Private players.

It will be a hub with tall trees and green areas able to mitigate the greenhouse effect and absorb CO₂. Designed in BIM, it will be LEED and GBC certificated.

DESCRIPTION

Vila do Conde Porto Fashion Outlet, northern Portugal's only premium fashion outlet, is set for a new expansion project that will add 10,000 m² with 31 new stores and four new dining spaces.

Sustainability is a central pillar of this project, which incorporates eco-friendly materials, energy efficiency and the inclusion of green spaces. Waste management projects, renewable energy, and initiatives like biodiversity reservation and water savings, including the installation of 962 solar panels, reinforce our commitment to economic and environmental sustainability.

The internationally recognized Vila do Conde Porto Fashion Outlet holds the BREEAM Outstanding level, ranking among the top 10 commercial buildings.
